

Parallel Mentor Seminars. Wednesday 11:00 – 12:30

Seminar 1. Room 1.403

11:00 – 11:45

Alan Robock

***Climate model investigations of solar radiation management:
The Geoengineering Model Intercomparison Project (GeoMIP)***

11:45 – 12:30

David Keith

***Moving beyond sulfate: towards practical stratospheric
scatterers that can lower the risk of solar geoengineering***

Seminar 2. Room 2.401

11:00 – 11:45

Ted Parson

***Governance of Climate Engineering: State of debate and
Current Issues***

11:45 – 12:30

George Collins

***Searching in Unknown Spaces: Scenario Planning, Games, and
Other Exploratory Techniques for Compounding Uncertainties***
