Insights into the Working Life of Physicists

On Thursdays
06:00 - 07:00 pm
Theoretikum
INF 306, SR14

JOB OPPORTUNITIES
PHYSICS

The following physicists will give insights into their career paths and all of the unimagined twists and turns along the way.

21.11.2017
Christian Kasparek - cynora GmbH, Bruchsal
Mr. Kasparek started a PhD in Mainz at the MPI for Polymer Research on improving the efficiency of OLEDs. Since April 2017 he has been working as a Scientist for Cynora, devising and analyzing experiments to further improve OLED-displays.

05.12.2017
Dr. Ralf Kaminke - Bundesbank, Stuttgart
Dr. Kaminke studied in Stuttgart and did his PhD in Erlangen. He conducted research on describing fluid nanobubbles as well as adhesion forces due to adsorption using a density functional approach. Nowadays, he works at the Bundesbank as an on-site bank auditor, mainly evaluating risk models.

19.12.2017
Dr. Sascha Hemmen - Daimler AG, Sindelfingen
Dr. Sascha Hemmen obtained his Diploma and PhD at the Institute of Applied Theoretical Physics in Clausthal, Technical University. He went through multiple positions within Daimler AG and joined the Mercedes-Benz Inhouse Consulting as a Senior Consultant.

The Career Service of Heidelberg University
The Career Service provides students and graduates from Heidelberg University with a wide range of consulting and training regarding occupational know-how and professional applying.
