§ 22 Access to examination documents
§ 23 Coming into force

Section I: General provisions
§ 1 Purpose of the academic programme and examination

(1) The B.A. course Classical Philology: Greek studies focuses on the texts of Ancient Greece. The goal is to convey a comprehensive philological understanding of these texts under consideration of aspects of the Greek language and its history, of the Greek literature constituted by the texts as well as its effects, and Greek culture as the context of the literature. Students planning to subsequently pursue a Master's degree should consider the admission requirements for that degree programme when selecting courses in cross-disciplinary skills. The Bachelor's degree programme is intended to enable students to gain a first degree that qualifies them to enter a profession, and provide them with the required skills to solve problems independently.

(2) The purpose of the Bachelor's examination is to assess whether students have mastered the basics of the subject Classical Philology: Greek studies, have an overview of the interrelationships between the individual disciplines, and have acquired the necessary fundamental skills, both methodological and practical, to enter a profession.

§ 2 Bachelor's degree

Heidelberg University awards the academic degree of "Bachelor of Arts" (abbreviated to B.A.) to those who have passed the Bachelor's examination.

§ 3 Standard period of study, programme structure and range of courses offered

(1) The standard period of study for the Bachelor's degree programme is six semesters, including examinations. Successful completion of the Bachelor's degree programme requires a total of 180 credits (CP) in both compulsory and elective courses.

(2) The Bachelor's programme is a modular programme and contains two major subjects (1st major subject 74 CP; 2nd major subject: 74 CP) and cross-disciplinary skills (20 CP). The Bachelor's thesis is worth 12 CP and is completed in the first major subject. The compulsory modules and associated courses are listed in Attachment 1. Please consult Attachment 2 for information on how to achieve the points in the cross-disciplinary skills. The subject Classical Philology: Greek studies can also be taken as a minor subject (35 CP) in combination with another major (113 CP).

(2a) When choosing the teaching degree option with the goal of later enrolling in a Master of Education degree programme, which leads to teacher training for employment at a German secondary school (Gymnasium), the student must study two subjects, each weighted at 50%. In this case, these examination rules and regulations as well as the “Framework regulations for the Teaching Degree option in Bachelor's programmes at Heidelberg University” (Rahmenregelung zur Lehramtsoption in den Bachelor-Studiengängen der Universität Heidelberg) must be observed.
(3) Generally, subjects from Bachelor's degree programmes may be freely combined, provided that the subjects in question are offered and paragraph 2a does not contain any restrictions. The Bachelor's degree is awarded, in accordance with the regulations, to those who have passed the prescribed examination components in both major subjects and in the cross-disciplinary skills and who have completed the Bachelor's thesis. Graduation in only one major subject does not entitle students to a Bachelor's degree.

(4) The faculty of the first major subject is responsible for verifying adherence to the regulations set forth in paragraph 3, and for issuing the diploma and degree certificate in accordance with § 21. The Joint Examination Office will support the faculty in this task.

(5) An orientation examination must be taken no later than at the end of the second semester. This examination will be taken during the course of study, and consists of successful completion of the course “Reading Greek: Introduction to literary texts (potential orientation examination)”. Successful participation includes completion of a 90 minute written examination, in which the grade “sufficient” (4.0) or better must be obtained. After the examination, there is an obligatory orientation meeting.

(6) If the orientation examination is not passed or is considered not to have been passed, it is possible to retake it once during the subsequent semester. If the orientation examination has not been passed by the end of the third semester, the student is not entitled to take the final examinations, unless the student is not responsible for exceeding the deadline.

(7) The orientation examination is a preliminary component of the Bachelor's examination.

(8) Prerequisites for admission to the degree programme are: certificate Ancient Greek (Graecum), certificate Latin (Latinum), reading proficiency in English and one additional modern Romance language (e.g., French, Italian, Spanish).
   a) The university entrance qualification or other corresponding diplomas are considered proof of the certificate Ancient Greek (Graecum), which is a prerequisite for participation in all courses and modules in the 4th, 5th and 6th academic semester. Therefore, proof must be submitted at the beginning of the 4th academic semester at the latest.
   b) The university entrance qualification or other corresponding diplomas are considered proof of the certificate Latin (Latinum), which is a prerequisite for participation in the module Greek literary studies II. Therefore, proof must normally be submitted at the beginning of the 4th academic semester at the latest.
   c) The university entrance qualification, other corresponding diplomas, or participation in courses that issue respective certificates are considered proof of knowledge in the modern foreign languages. Proof of reading proficiency in the modern foreign languages must be submitted prior to participation in the literary studies main seminar at the latest.
(9) If the required certificate Ancient Greek or Latin cannot be established through the university entrance qualification, up to two semesters per language can be discounted in the calculation of the standard period of study.

(10) Generally, the language of instruction and examinations is German. Lectures and courses may also be held in English.

§ 4 Modules, credits and transcript of grades

(1) A module is a teaching unit, self-contained in terms of both time and content and comprises various lectures and courses. It not only includes the lectures and courses attended, but also the components necessary for a passing grade in the module.

(2) The Bachelor’s thesis is considered an individual module.

(3) A distinction is made between

- compulsory modules: must be completed by all students
- compulsory elective modules: students may select these from a limited subject area
- elective modules: students may freely choose these from the modules offered in their subject.

(4) All components within a module must be graded as “sufficient” (4.0) or higher to pass the complete module (= sub-module grades).

(5) Credits are awarded for successfully completed modules, including their individual components. One credit (CP) corresponds to a workload of 30 hours.

(6) Grades that are to be recognised as having been earned during the course of study may only be submitted once and only in one subject area. If two subjects require the same course to be completed, permission to have it counted for both subjects may be granted. The decision on this matter will be taken by the respective examinations boards.

(7) The joint faculty examinations board takes the decision on recognition of assessments from other subjects to be included as components in the modules of the subject Classical Philology: Greek studies.

(8) A transcript of records will be issued at the end of each semester, listing all module and sub-module examinations students have passed, including the corresponding credits and grades.

§ 5 Examinations board

(1) The examinations board of the Faculty of Philosophy is responsible for the organisation of examinations and the tasks defined in the examination rules.
and regulations. It consists of two professors, a representative of the research assistants, and a student with advisory authority. The faculty council appoints the chairperson, the deputy, and the other members of the examinations board for a period of two years each. The student member is appointed for one year. The chairperson and the deputy chairperson must be professors.

(2) The examinations board ensures that the examination rules and regulations are upheld and provides recommendations to further improve the curriculum and the examination rules and regulations. It appoints the examiners and observers involved in examinations. The examinations board may delegate these appointments to its chairperson or to another person authorised by the Institute. This decision may be revoked at any time. The board may be called upon for all questions regarding examinations.

(3) The chairperson manages the business of the examinations board, prepares and chairs meetings and, in the event of a tie vote, has the deciding vote.

(4) The examinations board may confer further responsibility to its chairperson, or another person authorised by the Institute, provided this does not violate applicable law. Such a decision may be revoked at any time. The examinations board must be informed on a regular basis about the execution of these tasks.

(5) Members of the examinations board have the right to attend examinations.

(6) Members of the examinations board, examiners, and observers are obliged to maintain professional confidentiality. Members who are not civil servants are sworn to secrecy by the chairperson.

(7) The candidate must be informed of negative decisions of the examinations board immediately and in writing; the reasons for the decision must be stipulated and information on the procedure for appeal must be provided.

(8) The Joint Examination Office provides support to the examinations board and executes its decisions.

§ 6 Examiners and observers

(1) In general, examinations which are not completed as an integrated part of courses and lectures during the course of study may only be carried out by professors, lecturers, associate professors, or research assistants who, on the basis of longstanding teaching experience, have been granted the right to conduct examinations. Research assistants or research associates, adjunct lecturers and lecturers with special responsibilities may only be appointed to conduct examinations under exceptional circumstances; when there are not sufficient faculty members available who have the right to conduct examinations.

(2) Examinations held during the course of study are usually conducted by the teacher of the course in question.
(3) Observers must have sat the corresponding Bachelor's examination or equivalent.

(4) Candidates can propose an examiner for their Bachelor's thesis; however, this does not constitute a legal entitlement to be examined by a certain examiner.

(5) The chairperson of the examinations board ensures that candidates are notified of examiners’ names in due time.

§ 7 Recognition of course credits, examination results and academic degrees

(1) Course credits and examination results as well as academic degrees that were obtained through a degree programme at another state or state-recognised higher education institution or college of cooperative education (Berufsakademie) in the Federal Republic of Germany, or through degree programmes at state or state-recognised higher education institutions abroad, will be recognised as long as the skills acquired do not differ significantly from those required for the courses and examinations or the degrees to be replaced. This recognition is required in order to continue an academic programme, take examinations, enrol in a further academic programme or be admitted to a doctoral programme. The validity of § 15, paragraphs 3 and 4 LBG (State Public Service Law) remains unaffected.

(2) Preliminary and intermediate examinations taken at other German universities in the same degree programme or in a similar degree programme will be recognised. Courses completed at recognised distance-learning institutions will be considered equivalent to those in a corresponding traditional degree programme with regard to determining the duration of study.

(3) It is the applicant's responsibility to provide all information necessary for credits to be recognised. It is the responsibility of the office which carries out the recognition procedure to prove that an application does not fulfil the requirements.

(4) If existing agreements between the Federal Republic of Germany and other states concerning the equivalence of university degree programmes (Equivalency Agreements) diverge from paragraph 1 and § 29, paragraph 2, clause 5 of the LHG (Act on Higher Education of the Land of Baden-Württemberg), and thereby favour students from other states, the rules and regulations in the Equivalency Agreement shall take precedence.

(5) Examination results are to be graded on the basis of a credit point system that allows for recognition of achievements in equivalent or similar degree programmes; this also applies to universities of cooperative education, provided that equivalence exists.

(6) Knowledge and skills gained outside of a university degree programme may be recognised for such a programme, as long as

Please note that this document is a non-binding convenience translation. Only the German version of the document entitled "Prüfungsordnung der Universität Heidelberg für den Bachelorstudiengang Klassische Philologie: Gräzistik" dated 26 March 2015 [published in the President's bulletin (Mitteilungsblatt des Rektors) of 17 April 2015, p. 205ff] has legal validity.
1. the requirements for university admission are fulfilled at the time of recognition,
2. the knowledge and skills to be recognised for the university degree programme are equivalent in both content and level to the course credits and examinations which they are to replace, and
3. the criteria for recognition have been verified in an accreditation procedure.

Knowledge and skills gained outside of a university degree programme may not replace more than 15 credit points in a 50% BA programme, or 7 credit points in a 25% BA programme. A Bachelor’s thesis will not be recognised. If required documentation of individual examinations, which serves as proof of specific knowledge and skills, is not provided, the examinations board may request completion of a placement test.

(7) Credits may be awarded for study and examination components completed in the context of refresher courses (Kontaktstudien). When recognising credits from refresher courses for a university degree programme, paragraphs 2 and 5, as well as paragraph 6, sentence 1, number 1 apply accordingly. When recognising knowledge and skills gained outside of a university degree programme for refresher courses, paragraph 6 applies accordingly.

§ 8 Unexcused absences, withdrawal, deception and breaches of regulations

(1) An examination is graded as “failed” (5.0), if a candidate fails to appear to the examination and is unable to provide a valid reason for his or her absence, or if the candidate withdraws after the examination has started. The same applies if the candidate fails to complete a written examination by the established deadline, unless the candidate is not at fault for exceeding the deadline.

(2) Reasons for withdrawal or absence in accordance with paragraph 1 must be plausible and must immediately be submitted in writing to the examinations board. If the candidate, or a child for whom the candidate is generally the sole carer, is ill, a medical certificate must be provided. In the event of doubt, the University can request a medical certificate from a designated doctor. If the reasons are accepted, a new appointment will be scheduled. In this case, examination results that are already available will be taken into account.

(3) When deciding whether the candidate is at fault for exceeding a deadline for registration, or taking an examination, the examinations board must respect the provisions stated in the Maternity Protection Act and the legal regulations concerning parental leave, and allow candidates to make appropriate use of these provisions. The same applies for students with disabilities or chronic diseases, or for students with dependent relatives, in accordance with § 7 paragraph 3 of the Pflegezeitgesetz (Home Care Leave Act).

(4) If the candidate tries to influence the examination results through deception or by using unauthorised aids, the examination results will be graded as "failed" (5.0). If candidates disrupt the proper course of the examination, they may be excluded by the examiner or examination supervisor from further taking part in

Please note that this document is a non-binding convenience translation. Only the German version of the document entitled "Prüfungsordnung der Universität Heidelberg für den Bachelorstudiengang Klassische Philologie: Gräzistik" dated 26 March 2015 [published in the President's bulletin (Mitteilungsblatt des Rektors) of 17 April 2015, p. 205ff] has legal validity.
the examination, in which case the examination result will be graded as "failed" (5.0). In extreme cases, the examinations board may exclude the candidate from all further examinations.

(5) Within a period of one week, the candidate may request that the decision be validated by the examinations board in accordance with paragraph 4, sentences 1 and 2. The candidate must be informed of negative decisions immediately and in writing; the reasons for the decision must be stipulated and information on the procedure for appeal must be provided.

§ 9 Types of examination components completed during the course of study

(1) Examination components completed during the course of study are:

1. oral examinations
2. written examinations (electronically where applicable).

(2) If candidates provide a medical certificate which plausibly proves that they are not able to take examination components in the form prescribed, completely or partially, due to permanent or sustained health problems, the examinations board may allow them to take an equivalent examination in an alternative form. The same applies for other course requirements.

§ 10 Oral examination components completed during the course of study

(1) In oral examination components, candidates are required to show that they are able to identify interconnections within the examined subject matter, and that they are able to relate specific problems to these interconnections. Additionally, the purpose of the oral examination is to assess whether the candidate has adequate basic knowledge in the field of study.

(2) An oral examination lasts between 15 and 60 minutes.

§ 11 Written examination components completed during the course of study

(1) In written examination components, candidates should demonstrate that they are able to recognise problems relating to their subject and find solutions for them using subject-specific methods within a limited time period and using limited resources.

(2) A written examination component lasts between 30 and 120 minutes.

(3) If a written examination component is taken as a term paper, candidates must assure that they are the authors of their work and have used no sources or aids other than those indicated.

(4) The evaluation period for written examinations should not exceed four weeks.

§ 12 Assessment of examination components
Grades for the individual examination components are determined by the respective examiners. The following grades must be used for assessment of examinations:

1 = very good = an outstanding performance;
2 = good = a performance which lies substantially above average requirements;
3 = satisfactory = a performance which fulfils average requirements;
4 = sufficient = a performance which, despite deficiencies, still meets the requirements;
5 = failed = a performance which, due to considerable deficiencies, does not meet the requirements.

For a more detailed assessment of examination performance, grades may be further differentiated by increasing or decreasing the individual grades by 0.3; however, the grade 0.7 and incremental grades above 4.0 may not be used.

The final module grade is calculated on the basis of the unrounded values of module examination components, weighted according to the number of credits earned. If a final examination is to be completed within a module, this final module examination grade constitutes the grade for this module.

A subject grade is awarded for each subject (1st major subject; 2nd major or minor subject). These subject grades are calculated in accordance with § 19, paragraph 2, using the module grades, which are weighted according to the corresponding number of credits earned.

Final module grades, subject grades and the overall Bachelor's examination grade are:

for an average up to and including 1.5 very good
for an average of between 1.6 and up to/including 2.5 good
for an average of between 2.6 and up to/including 3.5 satisfactory
for an average of between 3.6 and up to/including 4.0 sufficient

In accordance with paragraph 4, when calculating final module grades, subject grades and the overall grade for the Bachelor's examination, only the first digit after the decimal point is taken into account, without rounding.

The Bachelor's examination is passed when all required examination components in both subjects, as well as the cross-disciplinary skills and the Bachelor's thesis, have been graded as "sufficient" (4.0) or better. In accordance with paragraph 4, when calculating the overall grade for the Bachelor's examination, the numerical grades for each subject and the grade for the Bachelor's thesis will be added without rounding, and weighted
according to the number of credits earned.

(7) In addition to the German-system grades, students who have passed the examinations will also be awarded a relative grade according to the following scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>top 10%</td>
</tr>
<tr>
<td>B</td>
<td>following 25%</td>
</tr>
<tr>
<td>C</td>
<td>following 30%</td>
</tr>
<tr>
<td>D</td>
<td>following 25%</td>
</tr>
<tr>
<td>E</td>
<td>following 10%</td>
</tr>
</tbody>
</table>

The relative grades are calculated based on the examination results of the total graduating class, as well as the graduating classes from two or more previous years, depending on the number of students in the current graduating class. For degree grades, the ECTS grade must be included. For individual modules, the ECTS grade may be listed when possible and necessary.

**Section II: Bachelor's examination**

**§ 13 Bachelor's examination admission requirements**

(1) Admission to the Bachelor's examination in Classical Philology: Greek studies is only authorised for students who:

1. are enrolled in the Bachelor's degree programme in Classical Philology: Greek studies at Heidelberg University,
2. have not lost their entitlement to take the final examinations in the Bachelor's degree programme Classical Philology: Greek studies.

(2) Certificates proving the following must be provided for admission to the Bachelor's thesis:

1. successful completion of the orientation examination
2. successful completion of the courses and lectures listed in Attachment 1, equating to 68 credits.
3. certificate Latin (Latinum) and certificate Ancient Greek (Graecum)
4. successful completion of modules and courses in the second major subject equating to at least 66 credits.

(3) In the modules “Basic module Greek”, or “Basic module Latin”, “Greek literary studies I” or “Latin literary studies I” and “Greek linguistics” or “Latin linguistics”, students who study Latin studies and Greek studies as their two major subjects take the courses “Introduction to Classical Philology” (basic module), “Introduction to Literary Studies” (Literary Studies I) and “Introduction to Linguistics” (Linguistics) in only one of the two subjects. In the other subject, they take an additional specialised introduction, reading course or practice class equating to 3 CP instead of aforementioned introductions.
§ 14 Admission procedure

(1) The application for admission to the examination must be made in writing, and addressed to the chairperson of the examinations board. The following must be included in the application:

1. evidence of fulfilment of the admission requirements outlined in § 13, paragraph 1,
2. a declaration stating whether a Bachelor’s examination in the Classical Philology: Greek studies Bachelor’s programme has previously been failed, or whether they are currently undergoing an examination procedure in such a programme.

(2) If the candidate is unable to provide such evidence, the examinations board may accept other documents as proof.

(3) The application is the basis for the examinations board’s decision as to whether the candidate may be admitted to the examination. Rejections must be made in writing, stating the reasons and providing information on the procedure for appeal.

(4) The application for admission to the examination may only be rejected if:

1. the requirements outlined in § 13, paragraph 1 are not fulfilled, or
2. the documents set forth in paragraph 1 are not complete, and have not been completed upon request, or
3. candidates have failed their final attempt at the Bachelor's examination in Classical Philology: Greek studies, or have lost the entitlement to take the final examinations, or
4. the candidate is currently involved in an examination procedure in such a programme.

§ 15 Scope and nature of the examination

(1) The Bachelor’s examination in Classical Philology: Greek studies consists of

1. successful completion of the examinations in the modules set forth in Attachment 1,
2. the Bachelor’s thesis (in the major subject, or 1st major subject)

(2) The examinations referred to in paragraph 1, number 1 are taken as an integrated part of the respective lectures or courses. They may be in written or oral form. The lecturer responsible for a course determines the nature and duration of the examination components and provides this information no later than at the beginning of the course.

§ 16 Bachelor’s thesis

(1) The purpose of the Bachelor’s thesis is for candidates to prove that they are
able to work independently, within a given period of time and using academic methods, on a problem from the field of Classical Philology: Greek studies.

(2) In accordance with § 6, paragraph 1, sentence 1, the Bachelor’s thesis may be assigned and supervised by any authorized examiner.

(3) The candidate must begin work on the Bachelor’s thesis no later than three months after successful completion of the last examination completed during the course of study, or must have submitted an application for assignment of a topic to the chairperson of the examinations board by that time. If the deadline is not met, the Bachelor’s thesis will be graded as “failed” (5.0), unless the candidate is not at fault for exceeding the deadline.

(4) The topic of the Bachelor’s thesis will be determined by the thesis supervisor, in consultation with the candidate. If an application for assignment of a topic is submitted, the chairperson of the examinations board will ensure that the candidate receives a topic for the Bachelor's thesis in due time. The candidate is permitted to propose topics; however, this does not constitute entitlement to a particular topic. The chairperson of the examinations board assigns the thesis topic; the date of assignment must be recorded.

(5) The deadline for submission of the thesis is nine weeks following assignment of the topic. In exceptional cases, the examinations board may extend this deadline by up to three weeks. If the deadline is not met, the Bachelor’s thesis will be graded as “failed” (5.0), unless the candidate is not at fault for exceeding the deadline. The topic may only be rejected once, and only within the first two weeks after the date of assignment.

(6) The topic, task and scope of the Bachelor’s thesis must be limited in such a way that the candidate is able to complete the thesis within the given period.

(7) The Bachelor’s thesis must be written in German. Upon approval of the examinations board, the thesis may also be written in other languages.

§ 17 Submission and assessment of the Bachelor’s thesis

(1) Four copies of the Bachelor's thesis must be submitted to the examinations board by the deadline; the submission date must be recorded. The thesis must contain a summary.

(2) When submitting the Bachelor's thesis, the candidate must assure in writing that they are the author of their own work and that they have used no sources or aids other than those indicated.

(3) The Bachelor’s thesis will be assessed by two examiners, one of whom must be a professor. The first examiner should be the supervisor of the thesis. The second examiner will be appointed by the examinations board. The candidate is permitted to propose a second examiner. This does not, however, constitute legal entitlement to examination by a particular examiner. The evaluation period
should not exceed six weeks.

(4) The grade is calculated as the average of the two assessments; § 12 shall apply accordingly. If the grades differ by more than one grade point, the examinations board will determine the Bachelor's thesis grade after consulting both examiners. In such cases, a third examiner may be consulted.

§ 18 Passing the examination and overall grade

(1) The Bachelor's examination in Classical Philology: Greek studies is passed when all examination components according to § 15, paragraph 1 have been graded as "sufficient" (4.0) or higher.

(2) When calculating the subject grade in accordance with § 12, paragraph 3, the module grades are weighted according to the credits gained. When calculating the overall grades, the numerical values of all module grades shall be considered without rounding, in accordance with section 12, paragraph 4.

(3) The overall grade for the Bachelor's examination is calculated in accordance with § 12, paragraph 6.

§ 19 Retaking an examination and deadlines

(1) If examination components are not passed or considered not to have been passed, they may be retaken once. This includes examinations failed at other universities. A second retake is only granted in duly substantiated cases and upon application for examinations completed during the course of study that are contingent upon a translation examination (see § 19, paragraph 2). The decision on admission to a second retake of examinations completed during the course of study in substantiated cases is taken by the examinations board. A second retake of the Bachelor's thesis is not authorised.

(2) A second retake of the orientation examination is not authorised; a second retake of the module ÜbIntGr I is also not authorised.

(3) Retaking an examination that has been graded as passed is not permitted.

(4) Failed examinations must be retaken no later than during the following semester. If the candidate fails to meet this deadline, they will lose their entitlement to take the examination, unless they are not responsible for exceeding the deadline.

(5) If a compulsory module examination is failed on the final attempt, the candidate will be excluded from the academic programme. Failure of compulsory elective modules and elective modules may be offset by the successful completion of a different module.

§ 20 Bachelor's diploma and certificate
Please note that this document is a non-binding convenience translation. Only the German version of the document entitled “Prüfungsordnung der Universität Heidelberg für den Bachelorstudiengang Klassische Philologie: Gräzistik” dated 26 March 2015 [published in the President’s bulletin (Mitteilungsblatt des Rektors) of 17 April 2015, p. 205ff] has legal validity.

(1) Once the Bachelor’s examination in both subjects is passed, a diploma will be issued within four weeks. This will list the subjects and all individual modules with their respective grades (graded in accordance with § 12, paragraph 3 and numerical value) and credit points, as well as the overall grade of the Bachelor’s examination. The diploma will also contain details of cross-disciplinary skills and the Bachelor’s thesis. The diploma is dated with the day of the last examination component. It must be signed by the chairperson of the examinations board.

(2) A “Diploma Supplement” in English and German will also be provided. This contains additional information about course content and the period of study. The content complies with the European Diploma Supplement Model.

(3) A Bachelor’s certificate in German is issued with the diploma, bearing the same date as the diploma. It certifies the conferment of the academic degree “Bachelor of Arts”. The degree certificate will be signed by the chairperson of the examinations board and bears the faculty seal.

(4) If the Bachelor’s examination is failed at the final attempt or is considered not to have been passed, the chairperson will issue a written notification, providing information on the procedure for appeal. A certificate will be issued upon request, and upon presentation of documentation of proof, listing passed examinations and their grades, missing examinations required for obtaining the Bachelor’s degree, and a statement that the Bachelor’s examination was not passed on the final attempt.

Section III: Final provisions

§ 21 Invalidity of examinations

(1) If a candidate has cheated on an examination and this is not discovered until after the diploma has been issued, the examinations board may accordingly correct the examination results for the affected examination components and may declare the examination to be partially or completely failed.

(2) If the requirements for admission to the examination were not fulfilled without any intent to deceive on the candidate’s part, and this is only discovered after the diploma has been issued, the passed examination is considered compensation for this shortcoming. If the candidate intentionally gained admission to the examination through deceit, the examinations board will take a decision on the matter.

(3) Before a decision is taken, candidates will be given the opportunity to provide an explanation.

(4) Fraudulent examination diplomas will be confiscated and, if necessary, a new diploma will be issued. If the examination has been graded as “failed” due to cheating or deception, the Bachelor’s certificate will be confiscated along with the fraudulent examination diploma. In accordance with paragraph 1 and
paragraph 2, sentence 2, a decision may not be taken more than five years after the date indicated on the examination diploma.

§ 22 Access to examination documents

After the examination procedure has been completed, the candidate has the right to request access to examination documents within a reasonable period of time. Requests must be made in writing. The request must be submitted within one year after completion of the examination procedure. The chairperson of the examinations board determines when and where such access will be granted.

§ 23 Coming into force

These examination rules and regulations come into force on 01 October 2007.

* Abbreviations
OE = Oral examination
WE = Written examination (test)
OP = Oral presentation (extensive, approx. 60-90 min.)
SP = Short oral presentation (approx. 10-20 min.)
LWA = Longer written assignment (12-18 p., e.g. seminar paper preparatory seminar
EWA = Extensive written assignment (20-30 p., extensive seminar paper, e.g. main seminar)
MI = Minutes
Attachment 2: Cross-disciplinary skills - Guidelines
(The department-specific requirements are listed in the module handbook under the module “cross-disciplinary skills”.)

Guidelines of the Faculty of Philosophy for the cross-disciplinary skills segment
Version of 21.1.2015

Preamble
In accordance with the Senate decision of 19 July 2005, all future Bachelor's degree programmes must include 20 credits in cross-disciplinary skills, which will not be counted in the calculation of subject-related credits, but will instead be listed separately. The Faculty of Philosophy provides a structured range of courses for the cross-disciplinary skills component, across various disciplines and degree programmes, including the four areas: professional qualification, interdisciplinary competence, interculturality, and organisational, pedagogical, and social competence.

The subjects and credit points that may be chosen from the various degree programmes can be found in the Attachments of the Rules and Regulations for the corresponding subject area, or in the degree programme descriptions of the various faculties. All modules that may be selected and recognised within the cross-disciplinary skills component are indicated in the course catalogue or module handbooks. The goals of the qualifications and skills to be acquired are described in these documents. For students pursuing one or more specific degree programmes, in addition to modules in the primary discipline, a cross-disciplinary pool of courses or modules from all departmental degree programmes or subjects will be developed, which is available to students in all participating degree programmes. It is intended that this cross-disciplinary pool will include courses outside of the Faculty of Philosophy.

The Faculty of Philosophy defines the cross-disciplinary component as an elective component, wherein students may freely combine courses relevant to their individual subject areas, and weight them in accordance with their interests. Some degree programmes may limit the courses offered or define the specific weighting factors in their rules and regulations.

The examinations board of the Faculty of Philosophy confers decision-making responsibility for degree subject related matters to authorised full-time employees at Heidelberg University Institutes; the Faculty and the examinations board must be given notification of their names. The examinations board reserves the right to revoke this decision in individual cases.

In accordance with the Faculty of Philosophy regulations, the following guidelines, which may be restricted within a particular degree programme, have been established for awarding credits within the cross-disciplinary skills component in the following four areas: professional qualification (I), interdisciplinary competence (II), interculturality (III), organisational, pedagogical, and social competence (IV):

I. Professional qualification (primarily intradisciplinary):
1. Internship (e.g. museum, excavation, editorial, archaeobotanical, or other internship that provides a professional orientation): up to 10 CP; course performance will be assessed on the basis of a detailed internship report.

2. Project work: 4-10 CP: Contact time, 1-2 CP; preparation and follow-up, 1-2 CP; course performance 2-6 CP, depending on specific requirements and workload.

3. Career-related tutorials or seminars: 3-5 CP: Contact time, preparation and follow-up, 2 CP; course performance, 1-3 CP, depending on specific requirements.

4. Writing Workshop: 3-5 CP: Contact time, preparation and follow-up, 2 CP; course performance, 1-3 CP, depending on specific requirements.

5. Publishing Practice: 3-5 CP: Contact time, preparation and follow-up, 2 CP; course performance, 1-3 CP, depending on specific requirements.

6. Rhetoric: 3-5 CP: Contact time, preparation and follow-up, 2 CP; course performance, 1-3 CP, depending on specific requirements.

7. University introduction to electronic media (e.g. databases, special data processing programmes, PowerPoint presentations, e-learning): 3 CP: Contact time, preparation and follow-up, 2 CP; course performance, 1 CP.

8. Specialised Didactics 10 CP: 1-5 CP: courses related to specialised didactics in the chosen subjects: Contact time, preparation and follow-up, 1-2 CP; course performance 1-3 CP, depending on specific requirements.

II. Interdisciplinary Competence:

1. Acquisition of basic interdisciplinary knowledge in cultural sciences, e.g. in the fields of history, art history, mythology, antiquity, religion, media and communication, philosophy, literature studies, ethnology, sociology, psychology, law, economic and natural sciences: 3-5 CP: Contact time, preparation and follow-up, 2 CP; course performance, 1-3 CP, depending on specific requirements.

2. Interdisciplinary courses based on the profile of the degree programme: 3-5 CP: Contact time, preparation and follow-up, 2 CP: course performance, 1-3 CP, depending on specific requirements.

Course series based on the degree programme profile, e.g. general studies course, lecture series: 2 CP: Contact time 1 CP, assessment based on e.g. minutes, thesis, or equivalent 1 CP.

III. Interculturalinity:

1. exchange programmes at a foreign university: for successful exchanges at a foreign university, and with documentation of at least 15 CP or ECTS-points in one or both subjects that are being studied, up to an additional 5 CP may be recognised for the acquisition of intercultural competencies, provided the student submits a detailed report and an evaluation from a supervising professor or a transcript.

2. Additional language acquisition relevant to the professional objective pursued by the student (unless this language is already part of the second major or is a requirement for this degree programme, e.g. Latin): 3-5 CP: Contact time, preparation and follow-up, 2 CP: course performance, 1-3 CP, depending on specific requirements; a total of up to 10 CP of 20 CP.

Please note that this document is a non-binding convenience translation. Only the German version of the document entitled "Prüfungsordnung der Universität Heidelberg für den Bachelorstudiengang Klassische Philologie: Gräzistik" dated 26 March 2015 [published in the President's bulletin (Mitteilungsblatt des Rektors) of 17 April 2015, p. 205ff] has legal validity.
from the cross-disciplinary skills course segment may be recognised for the additional language. This does not apply for languages that have already been certified in the university entrance qualification.

IV. Organisational, pedagogical and social competencies:

1. Participation in cross-disciplinary courses, e.g. training programmes of the department of key competencies (Abteilung Schlüsselkompetenzen) or those of other university institutions is subject to approval of an institutional representative who is a full-time employee at Heidelberg University, approx. 3-6 CP: CPs will be awarded based on the actual workload.

2. Participation in educational science courses: 1-10 CP: Contact time, preparation and follow-up, 1-4 CP; course performance, 1-8 CP, depending on the specific requirements of the subject area.

Attachment 3: “Cross-disciplinary skills” for the Teaching Degree option of the Bachelor’s programme Classical Philology: Latin Studies

If students choose the teaching degree option with Classical Philology: Latin studies as the main subject (50%) in order to orientate the Bachelor’s degree programme towards a later completion of a Master of Education for teaching certification at secondary schools (Gymnasium), the student must begin developing teaching skills during the Bachelor’s degree programme. This entails gaining a total of 20 CP within the cross-disciplinary skills, which can be recognised across subjects/separately (cf. Framework regulations for the Teaching Degree option).

The 20 CP consist of the following:
- Specialised didactics in subject 1 (2 CP)
- Specialised didactics in subject 2 (2 CP)
- Introduction to school pedagogy/pedagogical psychology (6CP)
- Basics of education studies (4 CP)
- Vocational work placement (3 weeks) in a school (3 CP)
- Vocational work placement (3 weeks) in an educational institution or school (3 CP)

Published in the President’s bulletin (Mitteilungsblatt des Rektors) of 20 April 2007, p. 729, modified on 28 May 2008 (President’s bulletin (Mitteilungsblatt des Rektors) of 20 June 2008, p. 401), modified on 22 April 2013 (President’s bulletin (Mitteilungsblatt des Rektors) of 31 May 2013, p. 267ff). and on 26 March 2015 (President’s bulletin (Mitteilungsblatt des Rektors)) of 17 April 2015, p.205ff).
