Master's degree programmes M.A. / M.Sc. / M.Ed.) and Legum Magister (LL.M.)

All Master's degree programmes at Heidelberg University are **access-restricted**. The access restrictions are determined in the respective admission regulations and can be defined by, inter alia, above-average examination results in the undergraduate degree programme or specific professional experience. Some Master's degree programmes have additional admission restrictions, i.e. the number of available university places are restricted (Numerus Clausus); others require the successful completion of an interview/selection test as part of the admission process.

German prospective students can **directly enrol** in merely access-restricted consecutive Master's degree programmes. A prior application does not need to be submitted to the central university administration. They are required to present a statement issued by a representative of the Master's degree programme they are applying for, confirming that the requirements set forth in the Admission Regulations have been met. **International** prospective students are **always required to submit their application in writing**, even in the case of merely access-restricted Master's degree programmes, due to the generally more time-consuming process of reviewing their previous academic records. The application deadline for international prospective students for access-restricted study programmes is 15 June for the winter semester and 15 November for the summer semester.

Abbreviations

NC	The subject is access-restricted as well as admission-restricted (so-called Numerus Clausus). Applicants are required to submit an application for admission .
NC*	The subject is access-restricted as well as admission-restricted, even in higher semesters. Applicants are required to submit an application for admission (The application deadline for higher academic semesters is 15 July for the winter semester and 15 January for the summer semester).
ZG	The subject is access-restricted. Prospective German students can enrol in Master's degree programmes following submission of the required documents until the end of the first week of lectures in the respective semester. Please contact the respective subject for information on how to proceed. International prospective students must apply by 15 June for the winter semester and by 15 November for the summer semester.
ZG&T/G (Test/Interview)	The subject is access-restricted. The application must be submitted prior to expiry of the application period in order to enable candidates to participate in an interview/selection test.
ZG/T/G* (Test/Interview)	The subject is access-restricted, even in higher semesters. The application must be submitted prior to expiry of the application period in order to enable candidates to participate in an interview/selection test.
ZG*	Non-consecutive Master's degree programmes or Master's degree programmes for continuing education are access-restricted. All prospective students are required to submit their application on time.

Please note: International applicants must always apply in due time and form!
