BE A THREAT
to monotony and explore a map full of exciting avenues for your career.

From improving electronic devices with smarter materials to generating ultra-pure water, testing the quality of food and drugs, and treating cancer, Merck always promotes opportunities to break new ground.

Join the Merck Discovery Day and bring your curiosity to life. Explore your potential future position and get authentic insights by accompanying one of our employees. Work on real-life projects in a dynamic and interdisciplinary environment.

22nd & 23rd November, 2018
Apply until October 31st, 2018!
