

Bulletin of Online Emendations to Papyri*

9.1 (April 24, 2021)

Rodney Ast, Lajos Berkes, James M.S. Cowey, Holger Essler, and Julia Lougovaya (eds.)
Institut für Papyrologie, Universität Heidelberg
Marstallstrasse 6, D-69117 Heidelberg

This installment of the Bulletin of Online Emendations to Papyri reports all of the emendation proposals to Greek, Latin and Coptic documentary and literary texts that were accepted to either the Duke Databank of Documentary Papyri or the Digital Corpus of Literary Papyri via the [Papyrological Editor \(PE\)](#) between March 15, 2019 and April 24, 2021.

The new readings have been vetted by members of the PE's editorial board, with the occasional input of outside reviewers. They have not appeared previously in print and are presented together here for ease of reference and review. The arguments and supporting evidence that were adduced to support them can be found in the "Editorial History" section at the bottom of the page following each text in [papyri.info](#).

Note on conventions: when a contributing author states explicitly that the proposed emendation has been checked against a published or publicly accessible photo or digital image we indicate this with the phrase '(from photo)'. Information about the photo or a link to the image (or both) can be found at [papyri.info](#) in the header of the text in question. If an author has consulted a photo that is not in the public domain, we indicate this with '(from a photo)'. If a reading has been verified against the original we write '(from original)'.

Papyrological citations are in accordance with J.D. Sosin et al. (eds), [Checklist of Editions of Greek, Latin, Demotic and Coptic Papyri, Ostraca and Tablets](#).
