

Cultural and Activity Newsletter November 2021

Dear visiting scholars,

We have compiled different events and activities for the next weeks.

We hope you enjoy them and we are happy to know any other suggestions from you, as well as we are looking forward to hear any possible feedback, if you managed to visit or undertake one of these offers:

International Film Festival Heidelberg Mannheim: This year's edition of this well-known International film festival is the 70th edition. To celebrate this anniversary, the event won't take place, as usual, at one single spot, but will be distributed in several cinemas both in Heidelberg and in Mannheim. During ten days, old and new movies from different countries will be shown. You will find more information and an overlook of the program [here](#).

Geist Heidelberg: The International Science Festival organised by the DAI has been showing for ten years the ongoing research of well-known researchers. Also this year, renowned German and International scholars will grant insights in their works. You will find this year's program and more information via following [link](#).

Christmas Market: After last year's mandatory break, this year the stands of the Christmas Market are reopening on November 18th. However, there are some considerations to take into account. You will find the regulations via following [link](#).
